How to install manual pin codes for the BeNext Tag Reader.

a. Create a new code name, and a 4~8 digit code. Type the code name and code, and click Set.

You will see Waiting for wakeup. Make sure the backplate is placed correctly. Press Home + 1 + enter. It will start communicating with the controller. After a while all the pin codes are set up and you are ready to go.

IRFIE

b. Test the Tagreader by either pressing HOME + pincode + enter or AWAY + pincode + enter.

4-8 digit code: Set	
Keep a copy of my PIN codes so that I can view	them later
Existing codes	
#1 Master (1234) Restrict code	(please selent) Remove
#2 Sub (4321) Restrict code	(please selett) Reasone
#3 User (1111) Restrict code	(please sele us) Renove

Notice: If the Tag is also used, the #1 code will be occupied by the Tag, that means,

the $\#1\ code\ will\ be\ no\ longer\ available,\ when\ the\ Tag\ is\ used$

How to install a Tag for the BeNext Tag Reader?

a. Install the app Tag Reader(fig1) http://apps.mios.com/plugin.php?id=5416

	PLUGIN Tas Reader	1.0	(fig1)		ireid Ü	Earn	(fig2
--	-------------------	-----	--------	--	------------	------	-------

b. After the app is successfully installed, you will find a new device with the 'Learn' icon, see (fig2).

c. Type the Device # of the Tag Reader into the box of

RFID_Device, see (fig3)

For example, if Device #73, type 73 into

RFID_Device, see (fig4)

d. Assign pin code to the Tag.(fig5)

Click on the 'Learn' button. Now press the "Home" button on the Tag Reader and keep your Tag in front of the Enter button until it beeps.

Setting up of the TagReader, and the Tag is completed

Only one tag can be included in the vera-box, buy a better z-wave controller for full support
